

# Spotlight on Inner Asia: The Bizarre Bazaar

**BRAND

*Spotlight on Inner Asia: The Bizarre Bazaar* is one of the first classroom resource guides of its kind. This comprehensive guide to teaching about Inner Asia helps teachers navigate through this new and challenging territory. Though scarcely known in the West, the region has always been a place of multiple and often unimaginable interactions – of peoples, ideas, commodities, and beliefs – The Bizarre Bazaar.

Spanning centuries from ancient to modern, and covering the map from Turkey to Mongolia, this resource guide approaches the study of Inner Asia through four main lenses. These include: imagining Inner Asia geographically, significance of cultural interactions along the Silk Road, the influence of the Mongol Empire, and the role of Inner Asia in the modern world.

Extensive strategies for employing the resources in the classroom and teaching methodologies are included. This resource guide is an excellent supplement to current textbooks and a great source for enriching the classroom experience.

The project was generously funded by the U.S. Department of Education.
